## Networking event for women in Supply Chain

On October 23rd 2024 Prof. Dr. Carola Schulz from the Hochschule Heilbronn – Hochschule für Technik, Wirtschaft und Informatik, attended the networking event organized for the women in Supply Chain community organized by 4flow alongside BVL Supply Chain CX. About 50 scientists and professionals from supply chain management exchanged ideas on topics related: hospital logistics, IT project management, crowd shipping, communication in the company, error culture and future generations skills. Prof. Schulz had the opportunity to present and debate the findings from its research as well as from the Erasmus + LogMaster Project for which Hochschule Heilbronn is a Project partner. Topics like rapid change, analytical and critical thinking, lifelong learning were among the key issues discussed
